

# PLANETPALS FREE RECYCLE KIT!

## KIT 4

A cut and print project!  
PRINT THEN CUT ALONG THE LINES.

Learn to use alternatives to pesticides!  
Pesticides sprayed on or near our yards and homes  
leave a residue that can be harmful to living things.

Let your neighbors know you don't use pesticides and you care.  
Then make this sign to show you are a Planetpal!  
Place it inside your house or on your lawn where everyone can see!
